

Bright Coffee Shop Sales Analysis

Mind Map

Project Structure, Tasks, Tools & Deliverables –
August 2026

Presented By
Emma Brooks

Project Overview & Objectives

Sales Analysis Goals

Identify top revenue-generating products, analyze peak store hours, and deliver actionable recommendations to support business growth decisions.

Key Insights Focus

Uncover revenue drivers, sales fluctuations, and product performance trends from USD annual revenue and transaction datasets.

Project Scope

Dataset includes sales transactions and USD annual revenue. Project deadline: 30 July 2026. Executive-ready deliverables throughout.

Mind Map: Project Structure & Hierarchy

Introduction

You have been provided with a dataset titled "Bright Coffee Shop Sales", which captures daily transactional information from a coffee shop. The business has recently appointed a new CEO whose mission is to grow the company's revenue and improve product performance. Your role, as a Junior Data Analyst, is to extract actionable insights from historical data and prepare a presentation to assist the CEO in decision-making.

Objective

Use your analytics, SQL, and data visualization skills to help Bright Coffee Shop understand:

- Which products generate the most revenue
- What time of day the store performs best
- Sales trends across products and time intervals
- Recommendations for improving sales performance

Tools Allowed

You may use any tool at your disposal, including but not limited to:

Project Planning	Coding Platforms	Data Visualisation	Presentation & Reporting
Miro	Microsoft SQL Server	Microsoft Excel	Microsoft PowerPoint
Figma	Databricks	Power BI	Canva
	Google BigQuery	Tableau	Miro
	MySQL Workbench	Google Sheets	Figma
	DBeaver		

Project Objectives: Identify revenue drivers, analyze peak hours, and uncover product performance insights.

Key Tasks: Planning & Architecture, Data Collection, Analysis, Visualization, Presentation & Documentation.

Tools & Technologies: Miro, Python, Tableau, Power BI, MySQL, BigQuery, Canva, Google Slides.

Deliverables & Timeline: Revenue trends, peak hours analysis, product highlights, recommendations. Due: 30 July 2026.

Project Objectives & Key Tasks

01.

Project Objectives

Identify top revenue-generating products, analyze peak store hours, and uncover growth insights and recommendations.

02.

Planning & Architecture

Develop Gantt charts, define workflows, and establish project scope and data architecture foundations.

03.

Data Collection & Analysis

Gather sales transactions, prepare datasets, and analyze revenue trends, peak hours, and product performance.

04.

Visualization & Reporting

Build dashboards, generate reports, and compile final presentation and documentation for executive review.

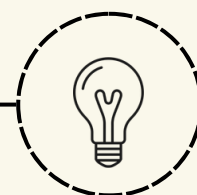

Tools & Technologies

Software & Platforms

Project Planning

Miro and Figma for workflow design and project architecture mapping.

Coding Platforms

Python, R, Databricks, and Google Colab for data processing and analysis.

Data Visualization

Tableau, Power BI, Excel, and Google Sheets for dashboards and reporting.

Database Tools

MySQL Workbench, Google BigQuery, and OBIEE for data storage and querying.

Docs & Presentation

Canva, Google Slides, and Miro for final reports and executive presentations.

Deliverables, Insights & Timeline

Key Deliverables & Insights

Revenue trends & sales fluctuations. Peak hours analysis for staffing & promotions. Product performance highlights. Recommendations to boost sales and engagement.

Planning: Architecture → Data Collection → Visualization

Analysis: Revenue trends, peak hours & product performance

Deadline: 30 July 2026 – Align resources & schedule reviews
